**Monsanto**

**Did You Know?**

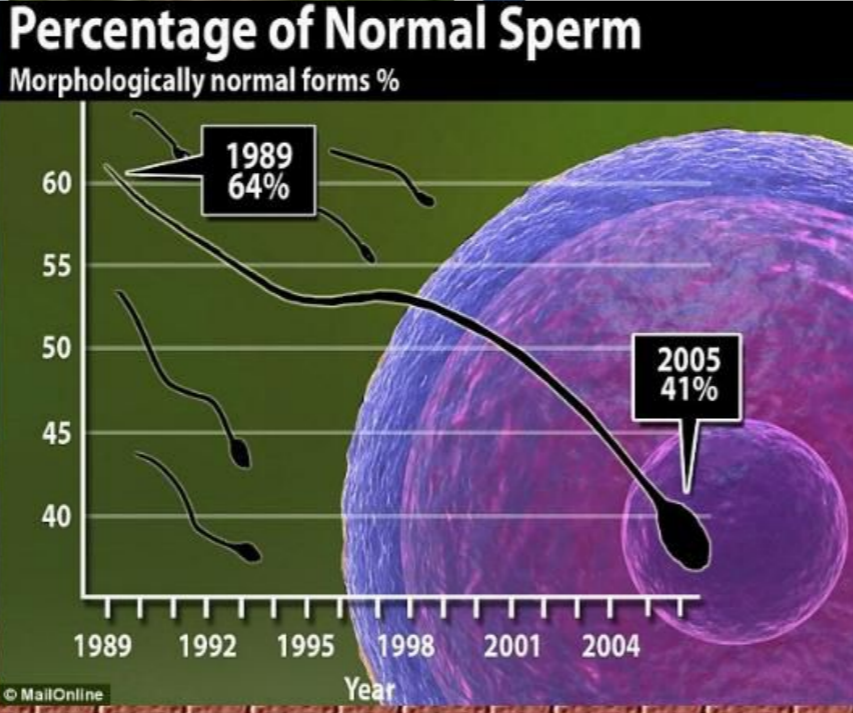

In 2001 Epicyte Corporation isolated a protein that causes sterility and spliced its gene into corn so that men and women eating the corn would become sterile. They sold that technology to Monsanto and to DuPont. To date No Congressman, No Senator and No Presidential candidate has dared ask Monsanto, DuPont or Epicyte why they are selling Genetically Modified corn that sterilizes us and our children. Instead, they mandated that all corn needed to be from Monsanto. There is truly something evil about our politicians.

"The world has 6.8 billion people... that's headed up to about 9 billion. Now if we do a really great job on new vaccines, health care, reproductive health services, we could lower that by perhaps 10 to 15 percent."
